Quantity is a suggested amount/number of supplies needed for a Dental Sealant Program where 150 students will be participating in the application of dental sealants.

✓	Quantity	
	1	Baggie (sandwich size for toothbrushes)
	1	Cotton Swab
	8	Cotton Rolls
	2	Dappen Dishes
	2	Dri-Angles (sm. recommended for 1-3 grades/large recommended for 4-6)
	1	HVE Tip
	1	Patient Bib
	1	Quik-Tip Applicator
	1	Sani-Tip

Bags for Sealant
Application (1 gal. size bag)

If approximately 150 students are to receive sealant application, prepare 200 bags. Prepare 1/2 of the bags with Small Dri-Angles and 1/2 of the bags with Large Dri-Angles. Distribute sealant application bags evenly among the units. Extra amounts of supplies should be available at each unit.
